SAFETY NOTICE

Ref No: 08 2010

Date: 25/08/10

Discharge of Twin 20' Containers at Fork Park

Following a number of incidents within recent months, all IMV/haulier drivers are reminded of the procedure for discharging twin 20' containers (front container first).

The vehicle driver must wait until the front container has completely cleared the trailer before pulling forward. Failure to do so may cause a collision between the back container and the Container Handler. This collision may lead to damage to the container handling equipment and personal injury.

David A Wilson
Head of Health & Safety (HP UK)

This notice and the system of work described has been developed to ensure compliance with current industry /safety standards and the Health and Safety at Work Act 1974.

Section 7(a) of the Health and Safety at Work Act 1974 states "It shall be the duty of every employee whilst at work to take reasonable care for the health and safety of himself (herself) and of other persons who may be affected by his (her) acts or omissions at work".
