

Parameters for the use of VBS slots (version 3 - 5/12/11)

Time of VBS	Auto Exchange minutes	Auto Exchange time	Exchange free time Minutes	Exchange free time	Early arrival tolerance (minutes)	Late arrival tolerance (minutes)
	The amount of time allowed BEFORE a VBS booking starts that the system will 'grab it back' if it does not have valid container details on it. In such circumstances the VBS booking will normally, automatically return to the exchange free from risk of a No Show charge (unless a haulier is classed as a shunter)		The amount of time BEFORE your booking starts that you can return an unwanted VBS slot without the risk of earning a No Show charge (see question 22)		The amount of time before or after your VBS booking time, when it is still valid to use the related booking to enter the port.
