

Dear Customer

It has been a challenging period for all our respective industries and business sectors and as we all work towards a more stable and secure future, I would like to take this opportunity to reassure you that we are here to support you with your specialised cargo needs.

We understand that the shipment of non-containerised cargo can be complex and difficult to coordinate, that is why we are committed to providing a service that offers quality and value, delivering simple solutions for complex needs. Our proven ability and excellent track record will help reassure you that your valuable cargo is in safe and trusted hands.

Whether it is multiple items into a container or a single item to be lifted from a flat rack to your haulier, we will work with you to carefully plan and deliver a bespoke service in line with your requirements; Our services include:

- Consolidation, Devan & Revanning
- Case work, Consignments and Split loads
- Boats & luxury yachts
- Miscellaneous machinery & plant
- Sheeting of cargo
- VGM via a dedicated on-site weighbridge
- Expert advice and support
- Free Quotation & Project Planning service

In addition to the services listed above, I would also like to highlight our ability to facilitate break bulk and project cargo consignments via our shipping berths. We also have some storage space available within the port's security perimeter and excellent road and rail links to the entire UK. For further information please contact our Commercial Team, details can be found at: [www.portoffelixstowe.co.uk](http://www.portoffelixstowe.co.uk)

So, when you are next considering your arrangements for 'Out of Gauge' and 'Break-Bulk' cargo, I would welcome the opportunity to understand your requirements and work with you to carefully plan and deliver a bespoke solution.

Best regards

**Steve Cullen**

Our philosophy is simple, to offer our customers the best possible service, quality and value.

Utilising our dedicated secure area located on port, our specialist cargo team use innovative lashing systems and techniques to load, lash and secure most types of cargo.

So whether you require cargo to be consolidated or devanned from a flat rack, lifted into or out of an open top or standard shipping container, we should be your first port of call.

**Consolidation split loads sheeting of cargo boats & yachts case work**  
**VGM weighbridge expert advice project planning free quotations**
